

# FANTASTIC UNDERWATER WORLD

- ★ With a small sponge and bright watercolors, paint a sandy seabed on a piece of drawing paper.
- ★ Rinse well, then using the sponge again, paint light-blue water above it.
- ★ Let it all dry for about 20 minutes. Using your crayons, draw brightly colored plants and creatures of the undersea world.
- ★ Perhaps the Rainbow Fish is hiding somewhere in the picture. Or maybe there's a submarine or a mermaid gliding through the water.

## MATERIALS

drawing pad

watercolor paints

small sponge

crayons

Have fun creating a fascinating underwater world of your own!
